

# HOSHIZAKI

## CERTIFICATION

HACCP International

ISO9001

## IM-100A Cube Ice Maker

### Key Features

**Hard and Crystal-Clear Ice**

**Perfect Taste**

**Perfect Shape**

**Perfect Dilution**

**Easy for maintenance**

Our is perfectly symmetrical and leaves a good impression with its hard, crystal clear quality that melts very slowly; allowing customers to enjoy their favourite drink longer. The IM series allows more flexibility of application with each range offering ice in variable sizes along side a design for uncomplicated usage from start to finish.

Our is produced by spraying water into an ice-making chamber cooled to  $-25^{\circ}\text{C}$ . As freezes gradually, effectively eliminating nearly 100% of impurities.

A fully closed water circuit ensures maximum protection against any form of contamination.

# Dimensions & Specifications

| MODEL                     |                   | IM-100A                                                                                                                               |
|---------------------------|-------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| ICE SHAPE                 |                   | Cube Ice (28 x 28 x 32mm / 23g)                                                                                                       |
| POWER SUPPLY              |                   | 1 Phase 220-240V 50Hz, Capacity Min: 1.53kVA (6.4A)                                                                                   |
| AMPERAGE                  |                   | 4.8A, Starting: 18.4A                                                                                                                 |
| ELECTRIC CONSUMPTION      |                   | 680W                                                                                                                                  |
| HEAT REJECTION            |                   | 1335W                                                                                                                                 |
| ICE PRODUCTION PER 24H    | (AT32°C / WT21°C) | 112kg                                                                                                                                 |
|                           | (AT10°C / WT10°C) | 108kg                                                                                                                                 |
|                           | (AT21°C / WT15°C) | 88kg                                                                                                                                  |
|                           | (AT32°C / WT21°C) | Approx. 52kg                                                                                                                          |
