Key Features

Hard and Crystal-Clear Ice

Perfect Taste

Perfect Shape

Perfect Dilution

Tropical Conditions

Cube ice is perfectly symmetrical and leaves a good impression with its hard, crystal clear quality that melts very slowly; allowing customers to enjoy their favourite drink longer. The IM series allows more flexibility of application with each range offering ice in variable sizes alongside a design for uncomplicated usage from start to finish.

Our ice is produced by spraying water into an ice-making chamber cooled to -25°C. As it freezes gradually, effectively eliminating nearly 100% of impurities.

A fully closed water circuit ensures maximum protection against any form of contamination.
