## KMD-400AB-B-801SA

### Crescent Ice Maker

### Key Features

Hard and Crystal-Clear Ice

Perfect Taste

Perfect Shape

Perfect Dilution

Easy for maintenance

This KM series ice maker produces clear, crescent-shaped ice that is extremely versatile. It features a double-sided stainless steel evaporator that requires fewer cycles to produce a full container of ice, reducing energy consumption and extending life.

The all-new C-Series offers improved hygiene features, IoT connectivity and more to meet higher customer expectations.

# Dimensions & Specifications

| MODEL                     |  | KMD-400AB-B-801SA                                                                                                        |
|---------------------------|--|--------------------------------------------------------------------------------------------------------------------------|
| ICE SHAPE                 |  | Crescent Cube                                                                                                            |
| POWER SUPPLY              |  | 1 Phase 220-240V 50Hz, Capacity Min: 1.57kVA x 2 (6.8 x 2)                                                               |
